

## Welcome to Walmar Mechanical Sales Ltd.

### Celebrating Over 35 Years

Walmar Mechanical Sales is a manufacturers representative-distributor in the Plumbing & Heating industry serving the Eastern Ontario & Western Quebec Region and have provided technical and marketing support for our principals for over 35 years.

On our website, we have tried to ensure the easiest possible to link to our supplier's web sites (representing) , To provide tools to help the Engineer, Contractor and Wholesaler with selections and various tasks (resources) and provided an alphabetical comprehensive list of the majority of our products by trade or generic name (products).

Walmar offers specification and design support to consultants, contractors, end users and wholesalers and maintain small local inventories of some key products to support distributors and installers for their immediate product requirements.

We pride ourselves in the degree of expertise offered by our specialists. Whether it be seminars given to the up and coming tradesmen at the local colleges or certification training for the fully licensed professionals or offering project specific selections to the engineering community, we offer a wide range of educational & technical services.

Please note- Walmar Mechanical Sales does NOT sell direct to the homeowner or consumer
